PROFESSIONAL EXPERIENCE

Team Leader — Etech Global Services LLC (*Technology-Enabled BPO | Customer Experience Solutions*) Nov 2019 – Present | Ahmedabad, India

- Lead and coach a team of customer experience professionals, setting performance goals and ensuring SLA adherence, productivity, and quality standards.
- Conduct performance reviews and provide constructive feedback to team members, driving improvements in productivity and customer satisfaction.
- Manage day-to-day client interactions and resolve escalations promptly, maintaining service quality and strengthening long-term relationships.
- Monitor, analyze, and track operational KPIs via dashboards to identify performance trends, variances, and bottlenecks, informing data-backed decisions for leadership.
- Execute data pulling and ad-hoc MIS reporting using advanced Excel functions to support data-backed decision-making for leadership.
- Drive continuous process improvement initiatives, standardizing workflows and leading change management across cross-functional teams.

Sales Engineer — Hi-Tech Investment Castings Ltd. Oct 2018 – Sep 2019 | Gujarat, India

- Managed end-to-end B2B customer, vendor, and supplier communications regarding specifications, documentation, and order fulfillment.
- Addressed order-level variances and coordinated cross-departmentally with production and logistics teams to ensure on-time delivery and customer satisfaction.
- Conducted market data analysis and generated regular status reports and presentations to support management review and business development decisions.

Shift In-Charge (Production Engineer) — Signor Polymers Pvt. Ltd. Oct 2017 – Sep 2018 | Gujarat, India

- Oversaw daily floor operations and shift personnel, ensuring compliance with strict safety and quality standards.
- Maintained accurate shift logs, monitored machine output metrics, and identified operational bottlenecks to improve daily throughput.
- Coordinated with procurement and supply chain vendors to ensure timely material availability and avoid production downtime.
