

DIPSINH YADAV

Customer Support & Quality Operations Professional

Ahmedabad, Gujarat, India | +91 9624767691 | dipsinhyadav@gmail.com

PROFESSIONAL SUMMARY

Customer Support and Quality-focused operations professional with 8+ years of progressive experience, including 6+ years in team leadership and customer experience management, spanning quality/safety compliance, B2B client relations, and manufacturing operations. Proven track record resolving customer escalations through root-cause analysis and corrective/preventive action, training and developing teams on service protocols and best practices, and using CRM platforms, MIS dashboards, and digital tools to capture customer feedback and track performance. Strong record of maintaining audit-ready documentation and driving continuous process improvement across cross-functional stakeholders including production, sales, and vendor teams.

CORE COMPETENCIES

Quality & Compliance: Quality Standards Compliance | Root-Cause & Corrective/Preventive Action (CAPA) Analysis | SLA Adherence | Process Improvement | Audit-Ready Documentation

Customer Experience Management: Escalation & Complaint Resolution | Customer Satisfaction Monitoring & Surveys | Client Relationship Management | B2B Account & Vendor Management

Team Leadership & Development: Team Coaching & Training | Performance Monitoring & Feedback | Change Management | Cross-Functional Coordination

Digital Tools & Reporting: CRM Systems | MIS Dashboards & KPI Reporting | Advanced MS Excel (Pivot Tables, Lookups, Formulas) | Database Fundamentals (SQL Basics)

PROFESSIONAL EXPERIENCE

Team Leader | Etech Global Services LLC (Technology-Enabled BPO | Customer Experience Solutions)

Ahmedabad, India | Nov 2019 – Present

- Lead and coach a team of customer experience professionals, enforcing quality and service standards, SLA adherence, and customer service protocols across daily operations.
- Investigate service variances and customer escalations using root-cause analysis, driving corrective and preventive actions (CAPA-aligned) that improved productivity and customer satisfaction.
- Own end-to-end complaint resolution and client interactions, capturing and analyzing customer feedback and satisfaction trends via KPI dashboards to identify areas for improvement and strengthen long-term relationships.
- Train and develop team members on customer service protocols, complaint-handling procedures, and best practices, reinforced through structured performance reviews.
- Implement and manage CRM and MIS dashboard tools to capture customer feedback and track service performance, maintaining audit-ready documentation (including CAPA status) and driving continuous process improvement.

Sales Engineer | Hi-Tech Investment Castings Ltd.

Gujarat, India | Oct 2018 – Sep 2019

- Managed end-to-end B2B customer and vendor relationships, maintaining accurate documentation on specifications, order fulfillment, and service commitments.
- Investigated and resolved order-level variances and customer complaints through cross-functional coordination with production and logistics teams, ensuring on-time delivery and customer satisfaction.
- Compiled data analysis and detailed status reports/presentations to support management reviews and business development decisions.

Shift In-Charge (Production Engineer) | Signor Polymers Pvt. Ltd.

Gujarat, India | Oct 2017 – Sep 2018

- Ensured strict compliance with safety and quality control standards across daily production operations, supervising shift personnel and maintaining audit-ready documentation.
- Maintained accurate shift logs and quality records, monitoring output metrics to identify root causes of bottlenecks and drive corrective actions that improved daily throughput.
- Coordinated with procurement, supply chain, and vendor stakeholders to resolve material and delivery variances, ensuring uninterrupted production and service continuity.
